

# Advanced Surface Mount Training Kit

SMT Solder Training Kits provide a cost effective and consistent approach to solder training. Instructors no longer have to spend their valuable time keeping track of inventory and looking for scrap production. The parts are packaged in static shielded bags to promote ESD awareness. These SMT kits are a reliable and economical way to ensure that each student and each class receives the same training materials. The Advanced SMT Kit contains more complex components that have reduced lead spacing and increased component lead counts. All of the parts are guaranteed solderable. As with all of the STI training kits, customized kits and individual parts are available.

## Part List

Advanced SMT Kits	SST-SMTK5 405-1007	SST-SMTK6 405-1008	SST-SMTK7 405-1009
PWB (SST-SM2A)	1	1	1
0402 Resistor	15	0	15
0805 Resistor	15	0	15
TSOP32, Type 1	3	0	3
QFP256-T15	1	0	1
QFP80-T30	2	0	2
QFP80-T25	1	0	1
QFP208-T20	0	4	4
BQFP132-T25	0	2	2
32SOJ	2	0	2
14SOIC	2	0	2
16SOLIC	2	0	2
84PLCC	1	0	1
D PAK	4	0	4

## Prices

Quantity	SST-SMTK5 405-1007	SST-SMTK6 405-1008	SST-SMTK7 405-1009	Board 405-0104
1-49	£69.00	£36.00	£91.00	£9.00
50-99	£64.00	£33.00	£84.00	£9.00
