

IPC-7711/7721 Rework/Repair Recertification Kit with LEAD FREE Option

Solder Training Kits are required for use in recertifying skills for IPC-7711/7721. These kits come with one board that is **fully assembled and soldered** with an additional set of component parts for removal and replacement training exercises. The components are packed in ESD Static Shield bags to promote ESD awareness. All parts and boards are guaranteed solderable. Custom boards, kits, and individual parts are also available. These kits are also available in either a **Lead Free** or **Tin Lead** version.

Parts List

Part Description	Quantity per Kit
Board (SST-IPC-RR1A)	1
1/4 Watt Resistor	12
14 Pin DIP	6
Capacitor With Standoffs	12
Transistors With Standoffs	12
0603 Capacitors	12
0805 Capacitors	12
1206 Resistors	12
SOIC 14	8
1206 MELF Diode	12
SOT 23	12
PLCC 28	8
LQFP44-T30 (10x10)	4
LQFP100-T20 (14x14)	4

Price

Quantity	SST-7711-REC	SST-7711-REC-LF Lead Free
1-49	£48.10	£48.25
50-99	£44.00	£44.15
100-249	£40.25	£40.35
250+	£38.35	£38.45
