

# IPC-7711/7721 Rework/Repair Training Kit with LEAD FREE Option

Solder Training Kits are required for certifying rework skill for IPC-7711/21. This kit provides two boards that are **fully assembled and soldered** with an additional set of component parts for removal and replacement training exercises. This kit is available in either a **LEAD FREE** or a Tin Lead version. The components are packaged in ESD shield bags to promote ESD awareness. Custom kits, individual boards, unassembled boards and parts are also available.

## Part List

Part Description	Quantity per Kit
Board (SST-IPC-RR1A)	2
1/4 Watt Resistor	18
14 Pin DIP	9
Capacitor With Standoffs	18
Transistors With Standoffs	18
0603 Capacitors	18
0805 Capacitors	18
1206 Resistors	18
SOIC 14	12
1206 MELF Diode	18
SOT 23	18
PLCC 28	12
LQFP44-T30 (10x10)	6
LQFP100-T20 (14x14)	6

## Prices

Quantity	SST-7711-K1	SST-7711-K1-LF Lead Free
1-49	£72.90	£86.90
50-99	£66.90	£79.50
100-249	£60.00	£72.70
250+	£58.00	£69.00
